Mr. G. S. Cunningham has laid on our table a very fine sample of Cashmere wool, clipped from one of his goats. He is dealing extensively in fine stock, and should be encouraged.

Negro Killed.

Last night about ten o'clock three unknown armed men went to the house of Henry Carnes, colored, two miles east of town, took him a short distance from the house and riddled him with bullets. We have not time to go into particulars about this outrage.

Railroad Accident.

Last Monday evening the passenger train going north on the Central road came in collision with a loose box car at Frost's station, thirty-two miles north of this city, which threw the engine and mail and baggage cars off the track, injuring the engineer and fireman and wrecking the cars considerably.

Westbrook, of the Brownsville Bee, passed up the road Tuesday. We warn the people of Louisville and Cincinnati in time.

Saturday, the first bale of this year's cotton was brought to town by Mr. A. L. Matthews. It was ginned at Capt. Hale's, weighed 484 pounds and was shipped to Memphis.

Saturday night Mrs. Rebecca Sloan, wife of James Sloan, near Lavonia, was so severely burned by the explosion of a lamp that she died the next morning. We did not learn the particulars.

Considerable excitement was occasioned yesterday morning by Mr. J. W. McKelvey discovering a lot of burnt paper and chips against his house, and it was thought an attempt had been made to burn him out. It was found afterwards that his little son, about five years old, made the fire "in fun." He'll not think it so funny next time.

HUMBOLDT ITEMS.

We clip the following items from the Humboldt Journal of last week:

The mud holes around the public well have been filled up—good.

A bear claimed on the street attracted the attention of the little boys yesterday.

There will be communion service at the new Presbyterian church on Webster street, commencing on Saturday, 29th inst., at 10:30, A. M.

A young Mr. Willford shot himself accidentally the other day three or four miles east of town. We did not learn how seriously.

Mr. R. C. Blair, aged about seventy-two, died at the residence of Cyrus Sykes on the 12th inst.

Crop prospects in this vicinity were never more gloomy. Corn and cotton have both "donned a pale and sickly hue" under the influence of the protracted drought. Crops, we fear, are already too far gone to be revived by rain, and actual want and suffering stare some of the farmers boldly in the face.

At the district convention held in the court room Wednesday evening, N. G. Atkins, C. H. Ferril, W. H. McKnight, Knox Gillespie and Col. L. C. Tyler were appointed delegates to the convention to assemble in Trenton the first Monday in September, to select a candidate for the lower branch of the Legislature. The delegates were instructed to put in nomination and support Col. G. W. Day for the position. Col. Day is an honest, straightforward gentleman and would make us a good representative.

Terrible Accident.

Miss Nancy Harris, living three miles east of this place, while returning from the Shiloh camp-meeting last Wednesday, met with probably a fatal accident at John's branch. Her horse became frightened at something, commenced backing until he ran against a carriage occupied by Mr. Coley, when he reared and fell back on her, crushing her terribly. She is in a very critical condition, and fears are entertained that she will not recover.

THE WAR BEGUN!

COMMENCING AT PICKETTVILLE!

"Cleaning Out the Country"—Twelve Friends Arrested and Imprisoned!

An Outraged People Rise Up in their Majestic and Lynch them!

For several weeks past vague rumors have been afloat of the negroes in this and Carroll counties arming and drilling regularly. It is said they have quietly bought all the buckshot that could be had in several country stores, and none of them have been seen hunting lately. Two weeks ago it was suggested by a number of our citizens that it would be well to organize a company here for guard and police duty, but our citizens thought it unnecessary and imprudent and the matter was dropped. Now, in view of the occurrences of the past few days, we think it very important that something should be done at once. We should have a military company in each town in this State. The issue is forced upon us and we dare not disregard it. The safety of our families may depend on it. Our neighbors in the villages around are calling on us for help and we have no organized force to help ourselves. Read the following and judge whether we are saying too much when we urge prompt action on the part of our citizens.

Saturday night as James Warren and Monroe Morgan were going home from Pickettville, a band of thirty or forty negroes, ambushed just below the village, fired upon them and wounded Morgan's mule, peppering his head and shoulder with shot. Morgan and Warren fled back to Pickettville and gave the alarm. A posse was soon out in pursuit of the dusky fiends, and twelve of them were caught that night and Sunday and held for trial Monday. The news of the trouble reached Milan Sunday morning, and it was rumored that the citizens of that section needed assistance and protection from threatened destruction by the blacks. A party of thirty of our citizens immediately equipped themselves and repaired to the scene of action. When they reached Pickettville they found considerable excitement, but no one hurt, and apprehending no further trouble they returned.

Monday the negroes were tried at Pickettville before Esqs. Fly, Parker and Jordan, and all twelve were committed. They confessed their guilt, stating that they were organized and designed "cleaning up" the whites and controlling this country themselves. They mentioned three companies in this county—one at Humboldt, commanded by one Reagan, another at Hope Hill, commanded by Rial Burrow, and the one near Pickettville, under the immediate command of Col. Josh Webb, who says they have endured the whites as long as they can and must exterminate them and take charge of the farms and rule this country as they see fit.

Three or four hundred men were present at the trial, coming from various parts of the country to witness the trial of the would-be destroyers of their families and homes. Great excitement was manifested by the crowd; however, no demonstrations of violence were made toward the prisoners, who appeared very impudent, intimating that this was but the beginning—that we might check them for a while, but an issue must and would come.

Writes were issued for fifteen others, but as yet only two or three of them have been taken, among whom is Rial Burrow, captain of the Hope Hill clan. Considerable excitement prevails throughout the country, every citizen being on the alert and many of the negroes frightened.

It is rumored that two white women have been killed near Pickettville, but we have as yet not been able to trace it to anything definite. The mayor of Trenton, we learn, telegraphed to Jackson to hold a company in readiness, and an engine and train is at that point, ready to move at a moment's notice.

We have reliable information that a party of about eighty men went to Trenton Tuesday night and took sixteen negroes from the jail. Up to the time of going to press six of their bodies had been found, riddled with bullets. It is supposed the others were killed and left in the swamp near that place.

LATEST.

L. M. Jones telegraphs from Trenton to Gen. Campbell, at Jackson, that the excitement is without any real foundation and the help will not be needed.

It is due to the negroes here to say that they have made no demonstration and seem perfectly quiet, for which they deserve commendation.

Clothing guaranteed ten per cent. cheaper than any house in the city. STONE & MILLS.

Not Yet Awakened.

The proposition for the city of Evansville to vote a tax of three hundred thousand dollars to our railroad was withdrawn last week. We suppose hard times is the cause. It would be a hard matter to raise such money for the enterprise in this State just now, and it may be well enough to let the matter rest awhile.

An election will shortly be held for Mayor and aldermen of this flourishing town.

A difficulty occurred four miles from here, near Meridian Church, a few days since, between two men named Manard and McCargo, in which the latter was fatally stabbed with a knife. We did not learn the particulars.

Brought Home Dead.

Yesterday Mrs. Neal, who has been visiting her daughter, Mrs. Morgan a boarder at the Old Academy, went to the Chattanooga depot to meet the incoming train from Chattanooga, at 12:20, in answer to a telegram from her father, Rev. Mr. Marshall, of Trenton, Tenn., requesting her to meet him at the depot and go with him to Trenton, he having been on a visit to friends in Atlanta, Ga.

Mrs. Neal and her daughter were promptly on hand when the train rolled into the depot. Failing to find her father among the passengers aboard the train, Mrs. Neal made inquiries of the conductor, and was informed that he had died at Chattanooga Sunday night of a congestive chill. The ladies were nearly overwhelmed at the sad news which came to them so unexpectedly, and their expression of grief was touching indeed.

The remains were accompanied to Trenton by Mrs. Neal. The deceased was about seventy years of age—Union and American, 25th.

ADVERTISING.

A correspondent of the Cincinnati Commercial, after giving the circulation and amount of income of the various New York newspapers, closed as follows:

OUR GREAT ADVERTISERS.

See just how much each one pays per year for printer's ink. I will give you the reports of some of them to me second-hand, but for which I can, of course, vouch:

A. T. Stewart	\$20,000
Lord & Taylor	25,000
Barnum	20,000
Arnold & Constable	15,000
Bulfinch & Sons	10,000
R. H. Macy & Co.	20,000
Richard Meigs	10,000
James McCarty & Co.	10,000
Robert Bonner	25,000
Roberts, the soap man	25,000
Dr. Pierce, the patent medicine man	100,000
Singer Sewing Machine Co.	100,000
Total	\$2,180,000

The science of advertising is well understood by New York business men, and none fail to find that it pays in the end. In my own short recollection, covering ten years, I remember in limited quarters on an avenue, by liberal advertising in that time have grown to be merchant princes, with establishments doing immense business.

I fail to recall one in that time who failed after generous advertising in the papers if I except Buchu Humboldt. He failed after spending fully \$250,000 per year on printer's ink, but it was after he had become insane and had committed many queer financial errors that never characterized his previous career, but the fact that the immense fortune he lost was made by advertising entirely, and not owing to any particular merits in himself should be considered. One great point our business men have learned and are profiting by is that it is when trade is dull that they derive the most advantage from advertising, hence then it is that many of them rush into the daily papers with column advertisements. This no doubt will be a profitable hint to your home merchants, whose interests I have had in my mind while preparing this letter on the science of advertising.

A New Phase of the Virginian Affair.

WASHINGTON, Aug. 23.—It has been ascertained from a reliable source that Spain instead of carrying into effect the understanding of the Fish-Polo protocol, namely, to investigate the conduct of those of its authorities who have infringed on Spanish laws or treaty obligations, and to punish those who may have offended, has made a demand of indemnity in the affair of the Virginian and for other alleged wrongs suffered by Spain, owing to the filibustering expeditions fitted out in this country, and landing or attempting to land men and munitions of war on the Spanish American coast.

To this demand our government has replied in firm but courteous terms, asserting the untenableness of the positions of the Spanish Government and reminding it of the remissness or inexcusable delay in making reparation for the wrongs suffered by American citizens in person and property.

The latest information from Minister Cushing, is that he is still pressing our demands on Spain. It seems certain the claims in the protocol providing reciprocal reclamations shall be the subject of consideration between the two governments, will not end satisfactorily. In which case it will become a subject of arbitration as per agreement, providing the constitutional assent of the Senate of the United States shall be given to it.

The McKenzie Times says the residence of Mr. John Hayes was consumed by fire on Tuesday morning of last week. Nearly the entire contents of the house were burned. It caught from a stove in the kitchen.
